Dear HydroMassage [Aquamed],

HydroMassage [Aquamed] has done very well for my business. It has been very effective in treating my patients; all those who get on it-love it! I mainly use the HydroMassage [Aquamed] to treat lower back pain, cervical pain and thoracic pain. However, I have also used the HydroMassage [Aquamed] when treating diabetic patients suffering from peripheral neuropathy by isolating the lower extremities and increasing the patient's circulation.

The marketing kit that comes along with the HydroMassage [Aquamed] bed is the best marketing kit I've seen with a piece of equipment I've purchased. I sell the included multiple session punch cards as 5, 20 minute sessions for \$140!

Thank you,

Allen Bryan, PT
